

Non-Allowables

Before your possessions are packed and loaded, it is important that you understand which items cannot be shipped because they represent a hazard or are perishable. Listed below are some common non-allowable items that you will need to address prior to your pack and load dates.

Note: You should empty your refrigerators and freezers and keep appliance doors open for at

least 24 hours in advance of loading. This will allow appliances to dry out and prevent the growth of mold.
